

6<sup>th</sup> February 2026

## UPDATE

### Australian Camps Association Statement

The Australian Camps Association (ACA) is aware of footage currently circulating publicly relating to activities at a camp held on the Mornington Peninsula in January 2026.

All ACA members are expected to uphold high standards of care, safety and conduct for both participants and staff.

The camp operator is cooperating with the ACA as it seeks further information. Any formal investigations sit with police and relevant authorities, rather than the ACA.

As the National Peak Body for the camping sector, the ACA supports its members while also expecting strong accountability and adherence to appropriate standards of behaviour.
