Welcome to Kabi Kabi Country

We are people of the Kabi Kabi Language Group of the Sunshine coast. Our lives and stories go back tens of thousands of years. Our Country includes the whole of the Sunshine Coast, west through the Hinterland, up through the Mary Valley and east to the coast and its offshore waters.

Our language is complex, with often more than one word for the same thing. It's an oral language, not written until the 1800s, and now English spelling is used to help people pronounce our words. This changes over time too. **Kabi Kabi** have also been known as 'Gubbi Gubbi'—this is because in our language the 'g' and 'k' are hard sounds, similar to, but in between the English 'k' and 'g' sounds.

To us, language is at the heart of Kabi Kabi Culture. It represents our entire knowledge and connection to Country. And Country means something extraordinary to Kabi Kabi Country is us and we are Country. You are welcome here on Kabi Kabi Country.

Acknowledgement:
The Sunshine Coast Recreation Centre (Cummundi) thanks the Kabi Kabi First Nation people for their support of our Kabi Kabi Cultural Trail. Special thanks to Helena Gulash for her Kabi Kabi Cultural knowledge and expertise and Ross Naumann, Uwe Wulffen and Amelia Neilson for the kind donation of photographs for this project.

Kabi Kabi - a vibrant and dynamic First Nation Culture.
Thank you for respecting Country.

Hi.. My name is Matt.. and this is how I arrived here 😊

30644

WHAT I'M HOPING YOU'LL GET FROM THIS PART OF THE SESSION...

- A better understanding of how easy it is to lead outdoor recreation activities to curriculum outcomes
- Some insight into the challenges you may encounter – should you choose to implement this at your organisation
- Have a bit of fun too!

30644

MY ROLE IN THE PROJECT

- The academic bulk of the Themed Programs project had been completed by the time I was called in...
- My job was to make the “rubber meet the road”

30644

CHALLENGES FACED...

- No training material – all of it had to be created
- A truncated timeframe to deliver
- I had a limited understanding of how the curriculum worked
- People don't like change... just in general!

Themed Programs and Key Learning Outcomes

GET ACTIVATED

Recognise elements of a healthy lifestyle

Understand physical activity

Identify the impact of screen time

Explore the benefits of physical activity

UNITE

Demonstrate effective communication skills

Explore goal setting strategies

Develop problem solving skills

Exercise trust and respect

BE STRONG

Build confidence

Recognise and manage emotions

Develop problem solving skills

Explore self-discipline and goal setting strategies

STAND UP

Recognise qualities of a good leader

Resolve conflicts

Develop decision-making strategies

Demonstrate effective communication skills

30644

How did I facilitate/ignite the change?

- I did it by challenging the instructors – The best instructors will be able to lead any activity to any outcome

30644

We had to revisit ABL and facilitation techniques within the context of the new themed programs

- Frontloading / Signposting vs Framing
- Use the natural surroundings 😊

30644

HOW CAN YOU ENSURE THAT INSTRUCTORS ARE FACILITATING TO CURRICULUM OUTCOMES?

- 70% is inherent in the activity itself.
- 15% is a targeted brief.
- 15% is a targeted debrief.

Follow this simple formula and it's JOB DONE!!!

Critical and Creative Thinking learning continuum

Sub-element	Level 1 Typically, by the end of Foundation Year, students:	Level 2 Typically, by the end of Year 2, students:	Level 3 Typically, by the end of Year 4, students:	Level 4 Typically, by the end of Year 6, students:	Level 5 Typically, by the end of Year 8, students:	Level 6 Typically, by the end of Year 10, students:
Reflecting on thinking and processes element						
Think about thinking (metacognition)	describe what they are thinking and give reasons why	describe the thinking strategies used in given situations and tasks	reflect on, explain and check the processes used to come to conclusions	reflect on assumptions made, consider reasonable criticism and adjust their thinking if necessary	assess assumptions in their thinking and invite alternative opinions	give reasons to support their thinking, and address opposing viewpoints and possible weaknesses in their own positions
Reflect on processes	identify the main elements of the steps in a thinking process	outline the details and sequence in a whole task and separate it into workable parts	identify pertinent information in an investigation and separate into smaller parts or ideas	identify and justify the thinking behind choices they have made	evaluate and justify the reasons behind choosing a particular problem-solving strategy	balance rational and irrational components of a complex or ambiguous problem to evaluate evidence
Transfer knowledge into new contexts	connect information from one setting to another	use information from a previous experience to inform a new idea	transfer and apply information in one setting to enrich another	apply knowledge gained from one context to another unrelated context and identify new meaning	justify reasons for decisions when transferring information to similar and different contexts	identify, plan and justify transference of knowledge to new contexts
Analysing, synthesising and evaluating reasoning and procedures element						
Apply logic and reasoning	identify the thinking used to solve problems in given situations	identify reasoning used in choices or actions in specific situations	identify and apply appropriate reasoning and thinking strategies for particular outcomes	assess whether there is adequate reasoning and evidence to justify a claim, conclusion or outcome	identify gaps in reasoning and missing elements in information	analyse reasoning used in finding and applying solutions, and in choice of resources
Draw conclusions and design a course of action	share their thinking about possible courses of action	identify alternative courses of action or possible conclusions when presented with new information	draw on prior knowledge and use evidence when choosing a course of action or drawing a conclusion	scrutinise ideas or concepts, test conclusions and modify actions when designing a course of action	differentiate the components of a designed course of action and tolerate ambiguities when drawing conclusions	use logical and abstract thinking to analyse and synthesise complex information to inform a course of action
Evaluate procedures and outcomes	check whether they are satisfied with the outcome of tasks or actions	evaluate whether they have accomplished what they set out to achieve	explain and justify ideas and outcomes	evaluate the effectiveness of ideas, products, performances, methods and courses of action against given criteria	explain intentions and justify ideas, methods and courses of action, and account for expected and unexpected outcomes against criteria they have identified	evaluate the effectiveness of ideas, products and performances and implement courses of action to achieve desired outcomes against criteria they have identified
